

STELLARIS GROUP

IT Infrastructure & Support Runbook

Stellaris Group IT Department · Version 8.3

Restricted: IT Staff + Approved AI Systems Only · Last Updated: February 2025

1. Network & Connectivity

1.1 Corporate Network (All Offices)

- SSID: StellarisSecure — WPA3 Enterprise, certificate-based authentication (802.1X)
- Guest SSID: Stellaris-Guest — Internet access only. No access to intranet, fileshares, or printers.
- VLAN segregation: Corporate (VLAN 10), IoT/Printers (VLAN 20), Guest (VLAN 30), Servers (VLAN 50)
- Proxy settings (if required): proxy.stellarisgroup.internal, Port 8080 — auto-configured via GPO on Windows

1.2 VPN — Cisco AnyConnect Setup

- Download: software.stellarisgroup.internal/vpn (authenticate with employee ID + password)
- Supported platforms: Windows 10+, macOS 12+, Ubuntu 20.04+
- Server address: vpn.stellarisgroup.com
- Select Group: Choose your vertical (Consumer / TechServices / Infrastructure / Corporate / Healthcare / Finance)
- Username: your_employee_id@stellarisgroup.com (example: 100234@stellarisgroup.com)
- Password: Your Active Directory (Windows login) password
- MFA: Microsoft Authenticator app — push notification. Enroll at aka.ms/MFASetup.
- Certificate error fix: Download and install Stellaris Root CA from it.stellarisgroup.internal/certificates.
- Split tunneling: Intranet traffic routes through VPN. Internet traffic goes direct (by design).

1.3 Password Policy & Reset

- Policy: Minimum 12 characters. Must contain: 1 uppercase, 1 lowercase, 1 number, 1 special character.
- Expiry: 90 days. System forces change. Cannot reuse last 6 passwords.
- Self-service reset (when not locked): go.stellarisgroup.com/reset — verify via registered mobile OTP
- Account unlock (after 5 failed attempts): go.stellarisgroup.com/unlock — same OTP verification
- If mobile OTP fails: Raise Priority 2 ticket with employee ID. IT SLA: 2 hours during business hours.
- Password manager: Dashlane Business licensed for all employees. Download from software portal.

2. Device Troubleshooting

2.1 Laptop Won't Connect to Corporate Wi-Fi (StellarisSecure)

Run this sequence before raising a ticket:

- Step 1: Forget the StellarisSecure network (right-click !' Forget) and reconnect from scratch
- Step 2: Verify device certificate is installed: Settings !' Certificates !' look for "Stellaris-Device-2025"
 - - If missing: Download from it.stellarisgroup.internal/certificates/device-cert.pfx (password in IT portal)
- Step 3: Flush DNS:
 - - Windows: Open CMD as admin !' ipconfig /flushdns
 - - macOS: `sudo dscacheutil -flushcache && sudo killall -HUP mDNSResponder`
- Step 4: If still failing, plug in via Ethernet and raise ticket: Category = "Network / Wi-Fi". Attach screenshot of error.

2.2 Microsoft 365 / Outlook Issues

- Outlook not sending/receiving: File !' Account Settings !' Account Settings !' Select account !' Repair !' Follow wizard
- Calendar not syncing on phone: Remove and re-add the Exchange account. Server: outlook.office365.com
- Mailbox size warning (>48GB): File !' Tools !' Mailbox Cleanup !' Archive items. Keep last 12 months in primary.
- Mobile email setup: Install Microsoft Outlook app !' Add account !' Enter email !' Company portal auto-config (Intune)
- Teams audio/video not working: Check audio/video permissions in Windows Settings !' Privacy. Reinstall Teams if needed.

2.3 Printer Setup by Floor (Nariman Point HQ)

Floor	Model	IP Address	Capabilities
Floor 3	HP LaserJet Pro MFP	10.1.3.45	B&W + Colour + Scan +
Floor 4	M428fdw Xerox VersaLink B405	10.1.4.12	Fax B&W only, high volume
Floor 5	Canon imageRUNNER	10.1.5.33	Colour + Scan + Fax +
Floor 6	ADVANCE C5560 HP LaserJet Enterprise	10.1.6.18	Staple B&W only
Floor 7 (Exec)	M607 Konica Minolta bizhub	10.1.7.22	Colour + Scan + Secure Print

To add a printer: Settings !' Printers !' Add Printer !' "The printer I want isn't listed" !' Add by TCP/IP address !' Enter IP above. Driver download: it.stellarisgroup.internal/printers — select model !' install.

3. Software

Access & Catalogue

3.1 Self-Serve Software (No Approval Needed)

- Productivity: Microsoft 365, Slack, Zoom, Google Chrome, 7-Zip, Adobe Acrobat Reader
- Communication: Teams (pre-installed), WhatsApp Business Desktop (for approved roles)
- Security: Dashlane Business, Malwarebytes (auto-installed via MDM)
- Download all approved software: software.stellarisgroup.internal

3.2 Approval-Required Software

Software	Approver Required	Approval SLA	Notes
Adobe Creative Cloud	Department Head	2 business days	Limited licences. Justify creative use.
AutoCAD / SolidWorks	Dept Head + IT	3 business days	Infrastructure/Real Estate teams only.
Tableau / Power BI Pro	Analytics or Finance Head	2 business days	Data access controls applied separately.
Salesforce	VP Sales	1 business day	Sales team only. Role-based access.
SAP GUI	Finance Controller	3 business days	Finance/Operations only. Training mandatory.
Any unlisted software	CISO + Dept Head	5 business days	Security assessment required. No exceptions.

4. Security Policies

4.1 Device Security

- Screen lock: 5-minute idle auto-lock enforced via Intune MDM on all company devices
- USB storage: Blocked on all company laptops. Use SharePoint, OneDrive, or Dropbox Business for file transfer.
- Full disk encryption: BitLocker (Windows) / FileVault (macOS) enabled automatically at setup
- Antivirus: Microsoft Defender + Malwarebytes Business. Do not disable. Do not install alternative AV.
- VPN mandatory when on public Wi-Fi. No exceptions. IT will be notified of non-VPN external connections.

4.2 Security Incident Response

- Phishing email received: Do NOT click any link. Forward the email to phishing@stellarisgroup.com. Delete from inbox.
- Clicked a phishing link: Immediately disconnect from network !' call IT emergency line: +91-22-6800-0002
- Lost or stolen device: File police FIR (mandatory) !' email ciso@stellarisgroup.com + people@stellarisgroup.com within 24 hours
- Data breach suspicion: Report to ciso@stellarisgroup.com within 1 hour. Do not attempt to investigate yourself.
- Social engineering attempt (call/email impersonating IT/HR/Management): Report to er@stellarisgroup.com

5. Hardware Request & Replacement

- Request form: it.stellarisgroup.internal/hardware-request
- Approval chain: Reporting manager (auto-notified) + IT team review
- Standard replacement SLA: 3 business days from approval
- Business critical SLA: Same day (requires written justification + VP approval)
- Laptop refresh policy: Every 3 years automatically. Submit refresh request via portal in Month 34 of tenure.
- Peripherals (keyboard, mouse, monitor): Self-service request in portal. No manager approval needed below ₹13,000.
